Beans Claim adjust

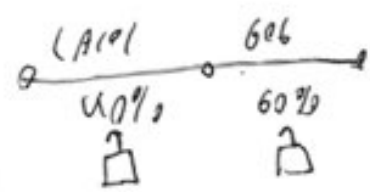

→ waiting...

Carol set her share before so it's manual  
now in the system - Alice won't affect her  
share by adjusting her own, why Bob's will

man claim adjust

→ override

Bob was too slow as the loss  
is unknown person there's no wiggle room  
for him to adjust his share w/o rearing  
everyones share  
but she could manually  
override this to make a  
complete distribution and set it  
via manual override -  
it's valid for that!

payment

Bob pays \$100

to Carol

Carol Bob Alice  
+\$15.00 \$0.00 -\$15.00
